## NIC-GST-Shield

"NIC-GST-Shield" App is provided for OTP authentication to logging into the e-Way Bill and e-Invoice System. Once registered using this App you may generate the OTP by yourself and does not require network connectivity. However, the OTP generated in NIC-GST-Shield App, depends on the current time which has to be in sync with e-Way Bill and e-Invoice system. The app is common to both e-Waybill and e-Invoice system and one-time registration may be done using either of the system.

### **Instructions for Installing and using NIC-GST-Shield mobile app.**

**Step 1:** Download NIC-GST-Shield app from portal using the option "2 Factor authentication -> NIC-GST Shield". Ensure the date and time on mobile is in sync with e-Waybill / e-Invoice system.

**Step 2:** Open NIC-GST-Shield app on your mobile, authenticate by entering username/ password and OTP.

**Step 3:** Now Scan the QR Code shown in e-Way Bill/e-Invoice portal using NIC-GST-Shield.

**Step 6:** Now, enter this OTP in the box and Submit.

**Step 7:** On successful verification of OTP, the app is successfully registered.

**Step 8:** Now open the app and enter the OTP displayed to login to e-Waybill and e-Invoice system.
